Geographical Pathology: An Inquiry Into the Geographical Distribution of Infective and Climatic Diseases (Classic Reprint) (Paperback)

By President Andrew Davidson

Forgotten Books, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Geographical Pathology: An Inquiry Into the Geographical Distribution of Infective and Climatic Diseases The object of this work is to sketch the geographical distribution of infective and climatic diseases, and to trace the influence of temperature, rainfall, altitude, and soil - conditions on their prevalence, character, and epidemic spread. Under the term infective diseases, I include miasmatic diseases, such as malaria; miasmatic-contagious maladies, such as cholera; and the contagious diseases proper, such as scarlet fever. Climatic diseases include, amongst others, croup, bronchitis, pneumonia, and rheumatism, which are either owing to, or are materially influenced by, meteorological conditions. Organic diseases of the heart, kidneys, and nervous system, which are not, as a rule, caused by infection, and are not materially It seems to be necessary to define more precisely the sense in which I employ these terms: - The terms miasm and malaria are not used in their etymological significance. By miasm is to be understood an infectious principle, whether organised or toxic in its nature, developing in, and derived from, the soil or other local surroundings of man, - even although...
