TECHNICAL MANUAL TM 3-34.84 SWIFT WATER DIVING OPERATIONS MARCH 2015 (PAPERBACK)

Createspace Independent Publishing Platform, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Technical Manual TM 3-34.84 Swift Water Diving Operations March 2015 Supervisors and divers must be thoroughly familiar with the risks associated with swift/fast water diving operations. Train-ups, rehearsals, and unit standard operating procedures should be used when planning and conducting diving operations in currents above 1 knot (1.85 kilometers per hour) (scuba) and 2.5 knots (4.63 kilometers per hour) (SSD). For the purposes of this manual, swift water is defined as sustained current from 1 to 4 knots (1.85 to 7.41 kilometers per hour). Fast water is defined as sustained current in excess of 4 knots (7.41 kilometers per hour). The distinction is important as many of the safety steps for swift water DO NOT translate into safe practices for fast water. Swift/fast water divers must know how to move in the water to lessen the chances of being trapped, or pulled off the project and thrown down stream. Careful consideration needs to be taken in regard to the divers overall fitness level, underwater hazards, lost diver procedures, and the increased risk of arterial gas embolism should the diver experience an uncontrolled ascent. Topside personnel must understand the forces acting on the diver, the tenders, and the support craft, as well as the potential for waterborne hazards to interfere with anchors, lines, and emergency recovery procedures. Supervisors must take into account additional risks associated with this type of operation. Leaders must plan for greater manning requirements, shorter bottom times, and increased fatigue of dive side personnel. This publication is developed as a supplement to AR 611-75, FM 3-05.212/MCRP 3-11.3A, SS521-AG-PRO-010 0910-LP-106-0957, and TM 3-34.83. TM 3-34.84 provides recommended planning steps and procedures for conducting swift/fast water diving operations, to...
