Pub Date: December 2012 Pages: 377 Language: English Publisher: Social Sciences Academic Press . Boyuan library Economic Observer Series: Chinese national asset balance sheet and perspectives Abstract: Summary of national assets balance sheet prepared in theory. methods. international experience. The preparation of the 2002 to 2010 national assets and liabilities and sector sub-table. Carried out a series of case studies on the national balance sheet face future risks. The pension gap caused by the aging of the population is the largest fiscal and debt risks facing China in the coming decades. to resolve should be to raise the retirement age and the allocation of state-owned shares to the social security reform. The generalized total health expenditure rise would be the second largest source of long-term financial pressure. If not reform in the next decade. after decades facing Europe and the United States debt crisis is not fantasy. From the point of view of external balance sheet. the internationalization of the RMB and the opening of the capital good than harm. Contents: the first part of the General Chapter of the national balance sheet concept and the preparation of a national balance sheet system assets of the two countries sheet with the System of National Accounts National balance sheet method of preparation Inclusive Wealth Report 2012 Chapter national balance sheet of international experience and the use of a UK Canada Australia Japan Appendix: Statistics Canada quarterly national balance sheet Comments on Chapter III national balance sheet in China at home and abroad on the national balance sheet study different focus for the country's real situation and the current risk through debt sustainability analysis of the long-term costs of economic policy...
