

The Unofficial Guide to Radiology: Chest, Abdominal and Orthopaedic X Rays, Plus CTs, MRIs and Other Important Modalities: Core Radiology Curriculum. 100 Annotated X-Rays (Including How to Present Them). 300 Multiple Choice Questions

By -

Zeshan Qureshi, United Kingdom, 2014. Paperback. Book Condition: New. 296 x 210 mm. Language: English . Brand New Book. X-ray interpretation is an important part of clinical work for all doctors. Unfortunately it is often an overlooked subject in the medical school curriculum, which many medical students and junior doctors find difficult and daunting. From the same series as The Unofficial Guide to Passing OSCEs, The Unofficial Guide to Radiology aims to remedy this by providing a systematic approach to chest, abdominal and orthopaedic X-ray interpretation. It is designed to be a useful learning resource for medical students, junior and hospital doctors, nurse practitioners and radiology trainees. The chest, abdominal and musculoskeletal X-ray chapters contain step-by-step approaches to interpreting and presenting X-rays. Each of these chapters then covers 20 common and important X-ray cases/diagnoses, which a junior doctor should be able to confidently identify. The content is in line with the Royal College of Radiologists Undergraduate Radiology Curriculum 2012, making it up to date and relevant to today's students and junior doctors. The layout is designed to make the book as clinically relevant as possible; the X-rays are presented in the context of a clinical scenario. The reader is asked...

Reviews

The best publication i actually study. I actually have study and so i am confident that i am going to likely to study once more yet again later on. You will not sense monotony at at any moment of your respective time (that's what catalogs are for relating to if you ask me).

-- Ernest Bergnaum

Absolutely among the best book We have ever study. It is actually written in easy words instead of hard to understand. I found out this publication from my i and dad encouraged this book to find out.

-- Kristina Rippin
