Reviews

This pdf is definitely not easy to get started on studying but quite entertaining to read through. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English Brand New Book ***** Print on Demand *****.Excerpt from *On the Smokeless Fire-Place, Chimney-Valves and Other Means, Old and New: Of Obtaining Healthful Warmth and Ventilation* That in the last fifty years of the worlds existence more important advances have been made in the arts of civilization than in any five centuries before, can scarcely be doubted by one who considers that within that time have sprung up - the application of Steam Power, itself a recent invention, to Railways and Navigation - Gas-lighting - the Electric Telegraph - Photography, or sun-painting - the Penny Postage, and other things. There is no reason for thinking that this progress is at an end. On the contrary, as clear-sighted men had long foretold the accomplishment of most of the results enumerated, before the popular mind had yet dreamt of the possibility of such wonders - so now are scientific men pointing to the quarters from which other novelties worthy to be added to the list are likely to come.
