Netl (National Energy Technology Laboratory): A Century of Innovation (Paperback)

By U S Department of Energy, National Energy Technology Laboratory, U S Bureau of Mines

Createspace Independent Publishing Platform, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. This publication presents a rich and detailed history of the National Energy Technology Laboratory (NETL) on the 100th anniversary of the founding of its original predecessor organization, the United States Bureau of Mines. This comprehensive account chronicles NETL's organizational history since 1910. To understand our history is to truly understand our organization, and, throughout this journey, A Century of Innovation is an invaluable guide to NETL's mission, vision, priorities, and structure. Our founding organization, the Bureau of Mines, was often a leader in technological advancements that benefitted American industries and consumers. Commencing as a small agency dedicated to making coal mining safer, it developed into a nationwide network of experiment stations supporting petroleum and natural gas production, mining and refining of rare metals, and the conversion of coal into gas and liquid fuels. From energy conservation efforts in the Great Depression, through urgent World War II research into aviation fuels, explosives, and nuclear materials, to its more familiar focus on developing new technologies to secure the Nation's energy future, NETL's path has had many pioneering...
