Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: French . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. D ou est venue l humanite ? comment sont nees les races qui la divisent ? dans quel ordre se sont combines les elements complexes dont les peuples actuels sont formes ? La pensee se trouble bientot lorsqu elle envisage cette serie de questions encore si obscures. C est cependant a les resoudre qu une foule d esprits serieux ont consacre de nos jours toute leur energie. Ils se sont jetes avec ardeur dans une carriere a peine ouverte, et, si jusqu a present on n a guere fait que sonder les difficultes de l entreprise, il n en est pas moins vrai qu une science nouvelle a ete rapidement fondee, qu elle a recueilli les documents les plus precieux et prepare les termes d une solution dont l avenir garde encore le secret. Le probleme des origines de l homme a cela de particulier qu il ne releve pas d une seule branche de connaissances; il constitue un terrain sur lequel plusieurs sciences se sont donne rendez-vous, et ce rapprochement leur a fourni l occasion d un controle mutuel. La critique historique, l archeologie, la linguistique, l anatomie comparee, l ethnologie, la paleontologie et la geologie tendent ici au meme but, malgre la diversite des procedes que chacune emploie. Le resultat final, encore inconnu, ne saurait pourtant demeurer toujours inaccessible; il est permis de croire que la solution ne se fera pas attendre, si l on mesure l etendue et la rapidite des progres accomplis.
