

Radiation Dose In Interventional Procedures

By Ochieng, Bernard

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | An Assessment of Patient and Occupational Doses in Kenyan Hospitals | This book is based on a research-work that assessed the level of radiation exposure to patients and staff i.e. doctors, nurses, radiographers and auxiliary staff normally present during x-ray fluoroscopically-guided interventional procedures in Kenyan hospitals. In addition, the author gives an insight into the general practice in interventional procedures as relates to radiation safety. The book is suitable for practicing radiologists, diagnostic medical physicists, radiographers, hospital radiation safety officers and regulatory authority inspectors as well as radiology and medical physics residents, trainees and students in the above areas; especially those with great interest on practice in Kenya and the East African region at large. | Format: Paperback | Language/Sprache: english | 92 pp.

A top quality publication and also the font employed was interesting to learn. It is really simplistic but excitement within the fifty percent from the book. Its been designed in an remarkably basic way in fact it is only following i finished reading this pdf where in fact changed me, modify the way i believe.
