Filesize: 5.97 MB

### **Reviews**

*This pdf is really gripping and exciting. Yes, it is actually perform, nevertheless an amazing and interesting literature. I am just effortlessly can get a pleasure of looking at a published pdf.*

Pub Date :2012-06-01 Pages: 198 Publisher: National Defence Industry Press title: data-driven motion control system design and realization of the original price: 30.00 yuan: CAO Rong-min Press: National Defense Industry Press Publication Date: 2012 -06-01 ISBN: 9787118081459 Words: Pages: 198 Edition: 1 Format: Folio: 32 Weight: Editor's Summary data-driven motion control system design and realization of the permanent magnet linear motors. three-phase asynchronous motors as well as DC motor as the research object. through the design of the data-driven control scheme. the motion control position. velocity tracking. positioning precision motion control problems. The book uses data-driven method of control is the control of the measured data of the closed-loop system based on the motion control system running effect. the design of the controller does not contain any mathematical model of the motion control system information. its evaluation. forecasting and stability test method development research directions. Evaluation and prediction of model-based control theory and methods are based on the results of the system model. evaluation and forecasting methods. however. in the practical application of the motion control system reliability is not high. because the model itself is not accurate. the system Lu The rod is poor. with poor mobility. Structural safety controller of motion control systems essential for the practical application. Data driven control method 2.11 of Chapter 2 Table of Contents Chapter 1 Introduction 1.1 Background 1.2 data-driven control method data-driven to 1.3 linear motor control research significance in the study and application of manufacturing data-driven control theory and control method 2.1 common based on online data model-free adaptive control method 2.1.2 based on the combination of online and offline data based on the the offline data the P1D control...
